Tactic Sans Extended — Logo typeface
Epura Regular — Website and documents

- Write the name as G.MEDIA — capitals, with the dot.
- Clear space — the height of two logo lines on every side; the same for the G mark.
- Minimum logo width — 71 px or 25 mm.
- Use the G mark only whole — do not crop it or build it from parts.
- Light file on light backgrounds, dark file on dark ones.
- Do not: recolour outside the palette, stretch, outline, place on a busy background or set the wordmark in another typeface.
